Vitaliy Kuzmych

Vancouver, WA | vitkuz3@gmail.com

OBJECTIVE

Civil engineering student seeking an internship or co-op to apply hands-on construction and mechanical experience toward infrastructure design and public-sector engineering.

EDUCATION

Portland State University — B.S. Civil Engineering | Expected Spring 2029

- Transfer student, sophomore standing (2026–27). In progress, Fall 2026: MTH 261 and USP 300U (PSU); Mechanics of Materials (ENGR& 225, Clark College).

Clark College, WA — Engineering transfer coursework, about 118 credits transferred to PSU | 2024 – 2026

- Relevant coursework: Statics; Dynamics; Engineering Physics I–III with labs; Calculus I–IV; General Chemistry I–II with labs; Field Surveying; Basic AutoCAD; Basic SolidWorks; Engineering Sketching; Technical Writing; Public Speaking

Heritage High School, Vancouver, WA — Diploma; honors math and English; Pre-Engineering pathway; Cascadia Technical Academy two-year automotive program | June 2022

EXPERIENCE

Laborer / Apprentice and Demo — Sight Construction and Verge Restoration (same owner) | Jan 2023 – Jun 2023

- New construction: material handling, basic roofing and siding installation. Water restoration: demolition and removal of damaged materials on insurance-based projects to prepare properties for repair.

Painter / General Remodeler — JDI Construction NW LLC, Portland metro | Aug 2022 – Dec 2022

- Performed interior remodel work, including flooring installation, demolition and painting, on residential and commercial properties, solo or as part of a crew.

Painting Apprentice — River City Painting LLC, Clackamas, OR | 2018 – Aug 2022

- Prepped and painted residential and commercial surfaces across multiple counties, following strict safety protocols around hazardous chemicals and materials.

Apprentice Technician — Ford Vancouver (Cascadia Technical Academy placement) | Jan 2022 – May 2022

- Diagnosed and repaired customer vehicles, including electrical and electronic systems; conducted general, emissions and safety inspections to state standards and produced accurate service documentation.

Small-Engine Repair and Contract Painting — Self-employed, seasonal | Summers, 2022 – present

- Side work, mostly summers between school terms: diagnose and repair small engines and lawn equipment, managing parts sourcing and customer communication; contract painting with a family member (May–Oct 2023, occasional jobs since).

LEADERSHIP

Youth Choir Co-Director; Youth and Worship Leader — Church of Christ the Savior, Vancouver, WA | Nov 2019 – present

- Co-direct the youth choir (since May 2026), help lead weekly youth programming, and serve on five rotating worship groups scheduled through Planning Center.
- Designed an inventory-and-sign-out system for group equipment storage, iterating the design to fit real space and reusability constraints.
- Consolidated 40+ pages of disorganized meeting notes into one clear reference document; maintain the choir's cross-referenced sheet-music archive and Excel song-list workbook.

PERSONAL PROJECTS

Family Salvage-Vehicle Restoration — Personal, one car at a time as needed

- Run value and repair-cost estimates on salvage-auction vehicles before bidding; coordinate the broker, delivery and specialized repairs; order parts and do most disassembly and reassembly.

CERTIFICATIONS AND SKILLS

Safety: OSHA-approved S/P2 (automotive service safety, above-ground lifts, pollution prevention); confined spaces; electrical shock and contact release; bloodborne pathogens; BLS CPR/AED and first aid; OSHA-10 Construction (expected November 2026)

Technical: ASE entry-level certified (A1, A3, A6, A8); AutoCAD and SolidWorks (intro courses); Civil 3D (basic exposure); Microsoft Excel, Word, PowerPoint; Google Sheets; Planning Center (church scheduling software)

Languages: English and Russian (native); Ukrainian (fluent)

Interests: Hiking; urban design, infrastructure and city mapping; restoring vehicles
